

#LadkiHaathSeNikalJaayegi

I saw the video

on <https://www.youtube.com/watch?v=eDWAyOJsOig#LadkiHaathSeNikalJaayegi> portraying **Nanhi Kali** which depicts **#LadkiHaathSeNikalJaayegi** to accha hai

I have often seen and it is true in many cases in our country that, it is the boy in the family that takes the upper hand in almost everything. Therefore, it is the Girl who sacrifice her rights and dreams either to make way for the boy in the family, at times under pressure from the parents or for the larger benefit of the family, be it for the right to education or other interests that she may want to pursue. So it is always the girl who exercises the Choice to Sacrifice.

However, I now see things a little differently. It is a matter of great interest to me coz times are changing and the girls are finally taking their own decisions, making their own choices without having to worry about anything and being constrained by the Society. And lo and behold a time will come when we can proudly say **#LadkiHaathSeNikalGayi**. I can clearly see that we are beginning a journey towards emerging as an improved and diversified society. While Nanhi Kali talks or should talk about stories of **#LadkiHaathSeNikalJaayegi**, I feel we should hear more of **#LadkiHaathSeNikalGayi** and talk more about these stars which can serve as a 'a Misaal' for the Girl Child and the new Generations, the GenZ that we call it and encourage more of **#LadkiHaathSeNikalGayi**

Watch this space as I put stories on **#LadkiHaathSeNikalGayi** that I come across around the world. Please do share your **#LadkiHaathSeNikalGayi** stories and I will be delighted and privileged to be the Sutradhaar (curator) of this . So let's try for a 'story a week' and bring to light these great 'Stars'.

Mere khayal se **#LadkiHaathSeNikalGayi** to **bahut bhadiya hai.**
